

The Call In The Night.

Ceara, Brazil

ISSUE 01 Season To Prepare

A Call To Pray:

A Filling Of The Spirit

For our family in this time of preparation. To be found ready as diligent and disciplined soldiers before the battle.

For The Team

We believe that The Lord has called a few others to go down . Hey, it may even be you!

The State of Ceara, Brasil

For the people to be open to the Gospel. For the chains of occultism to be broken and for the Spirit to rain down upon them.

Wisdom

To clearly hear God and what He wants to do in us and through us. For the wisdom and courage to go when He says "NOW".

Most of you are familiar with the young prophet Samuel in the Lord's temple and his uncertainty when he heard his name being called by the Almighty. Finally, Eli told him to respond "Speak Lord for your servant hears". Well, the Lord has been calling us. To be totally honest we weren't sure whose voice it was (ours or The Lord's) and what to do about it. However, like Eli's suggestion was to Samuel, The 2007 Calvary Chapel Missions Conference was to us; an opportunity to ask The Lord to speak and an opportunity to hear. What did we hear? Well, we heard to get ready to go and be a part of The Spirit's work in the northeast of Brazil. Many of you know that serving the people especially the street kids of Brazil has been a burden in our hearts for some time. We still don't know the specifics other than the Lord clearly telling us to Get Ready!

Under the instruction and guidance of our pastor Robert Fountain and with the encouragement of the rest of Calvary Chapel of Miami Beach, short-term missions trips to Fortaleza, Ceara are being planned. Scoping the land and preparing it for the harvest before the big move. We encourage you to pray and consider either becoming a part of a short-term mission team or joining us as we go to the front lines on our knees praying for the hearts and lives of the people of Ceara.

Ceará is located in the northeastern corner of Brazil. Ceará is the Brazilian State nearest Europe and North America. With more than 3 million people, Fortaleza is the fifth largest metropolitan area in Brazil and unfortunately rated the worst city for child prostitution in the whole country. For centuries, the economy of Ceará was based on three factors: agriculture of subsistence; the cattle raising, in the interior lands of the State; and the production of salt, in the eastern coast of the state. We think that part of God's plan includes a building, a field

and an orphanage or children's home. We need your prayers and the Holy Spirit to give us the grace to move ahead. Please watch for updates, dates for the trips and other prayer and praise reports in upcoming issues.

In His Love...
